Bachelor of Child and Youth Care

Honours Degree

Program Code: 22231

Campus: Lakeshore

Length: 8 semesters

Humber's Bachelor of Child and Youth Care degree program provides you with the knowledge and skills required for in-depth work.

You'll learn from highly qualified professors, as well as from guest lecturers from the field of child and youth care or community work.

Your courses integrate the study of developmental, preventative and therapeutic approaches in child and youth care and will teach you to apply this knowledge in the workplace.

The first two years of the program provide you with a comprehensive understanding of child and youth development, as well as child and youth care.

Work-integrated Learning (WIL) is essential in connecting theory to practice. Students will work on an applied project and/or with employers.

The combination of field experiences will enable you to practise building therapeutic relationships, role model your professional skills and develop your own professional identity.

Courses
